ALEENA MAROOF

Karachi, Pakistan | +92 319 3377065 | aleenamaroof7@gmail.com

PROFILE

Motivated BS Information Technology student at Bahria University with knowledge of front-end web development, C++ programming, data structures and algorithms, and computer networking fundamentals. Interested in building user-friendly web interfaces and applying technical skills in practical projects and internships.

TECHNICAL SKILLS

Front-End Development	HTML5, CSS3, JavaScript, Bootstrap, React
Programming	C++
Core IT	Data Structures & Algorithms (DSA), Computer Networking (CCN fundamentals)
Other Skills	Microsoft Office, Problem Solving, Time Management

EDUCATION

Bahria University, Karachi Campus — BS Information Technology (BSIT) 2025–2029

Studying programming, web development, and foundational information technology subjects.

Bahria College, Karsaz, Karachi — Intermediate in Computer Science (ICS) 2021–2023

Studied computer science, mathematics, and software and hardware fundamentals.

PROJECTS

Library Management System — C++

Console-based application to manage library books, users, and records. Includes book registration, search, issue/return features, and file handling using structures, arrays, and functions.

Online Cake Shop — HTML, CSS, MS Access

Designed a user-friendly website interface with Home, Product Catalog, Order Form, and Contact Us pages, using a responsive layout for modern browsers.

CERTIFICATE

Certificate of Participation — Speed Programming Competition, Coder’s Clash
